Summary

A plain-language summary of how the IFBe pilot is positioned legally, what it is — and just as importantly, what it is not. This document is informational and does not constitute legal advice. Final legal framework is prepared with our legal counsel before any pilot launch.

Financial risk note

Nothing on this page or in the IFBe pilot is an offer of securities, a profit promise, or financial advice. Crypto and energy markets are volatile. Past performance does not predict future results. Never commit funds you cannot afford to lose. If you are unsure, consult an independent licensed advisor in your jurisdiction.

Six commitments

1. Utility, not investment

IFBe is a utility pilot inside the LOVE ecosystem. There is no ICO, no profit-sharing token, no promise of return, no offering of financial instruments under MiCA, MiFID II or ZTFI.

2. Strict legality by default

We operate strictly inside MiCA, MiFID II, ZTFI, GDPR, AML/KYC and Slovenian energy law (EZ-2 / Agencija za energijo). When in doubt, the more conservative path always wins.

3. GDPR-first metering

Smart-meter integration is opt-in only, preceded by a DPIA, minimised in scope, encrypted at rest, and revocable at any time. No data sale to third parties — ever. Revoke at [/ifbe/consent/revoked](/ifbe/consent/revoke).

4. No P2P energy trading (yet)

The pilot computes virtual-battery contributions internally. It does not buy, sell or balance electricity between households. Real P2P energy markets would only run later through a licensed partner.

5. Written agreements before launch

Roles, IP, revenue split and IFBe brand usage between Wise World 2012 Ltd (operator) and Marko (IFB / energy know-how) are formalised in writing before any pilot goes live.

6. Honest risk disclosure

If you later use paid LOVE-ecosystem services (LOVE Nodes, LOVE Engine, exchange), standard risk disclosures apply. Crypto and energy markets are volatile. Never commit funds you cannot afford to lose.

Povzetek

V razumljivem jeziku zapisan povzetek, kako je IFBe pilot pravno umescen, kaj je — in enako pomembno, kaj ni. Dokument je informativen in ni pravni nasvet. Koncni pravni okvir pripravimo z nasim pravnim svetovalcem pred zagonom kateregakoli pilota.

Opomba o finančnem tveganju

Nic na tej strani ali v IFBe pilotu ni ponudba vrednostnih papirjev, obljuba dobička ali finančni nasvet. Trgi krypto in energije so volatilni. Pretekla uspešnost ne napoveduje prihodnje. Nikoli ne vložijo sredstev, ki si jih ne moreš privoščiti izgubiti. V dvomu se posvetuj z neodvisnim licenciranim svetovalcem v svoji jurisdikciji.

Sestavek

1. Utility, ne investicija

IFBe je utility pilot znotraj ekosistema LOVE. Ni ICO, ni zetona z delitvijo dobička, ni obljube donosa, ni ponudbe finančnih instrumentov po MiCA, MiFID II ali ZTFI.

2. Privzeto strogo pravno

Delujemo strogo znotraj MiCA, MiFID II, ZTFI, GDPR, AML/KYC in slovenske energetske zakonodaje (EZ-2 / Agencija za energijo). V dvomu vedno zmaga bolj konzervativna pot.

3. GDPR-first metering

Integracija pametnega stevca je izključno opt-in, pred njo izvedemo DPIA, zbiramo minimum, hranimo sifrirano in jo lahko kadarkoli prekliciš. Podatkov ne prodajamo tretjim — nikoli. Preklic: </ifbe/preklic-soglasja>.

4. Brez P2P trgovanja z elektriko (zaenkrat)

Pilot interno izračunava prispevke k virtualni bateriji. Ne kupuje, prodaja ali izravnava elektrike med gospodinjstvi. Pravi P2P energetski trgi bi tekli sele kasneje preko licenciranega partnerja.

5. Pisne pogodbe pred zagonom

Vloge, intelektualna lastnina, delitev prihodkov in raba znamke IFBe med Wise World 2012 Ltd (operator) in Markom (IFB / energetska znanje) so pisno formalizirane pred zagonom kateregakoli pilota.

6. Iskrena razkritja tveganj

Ce kasneje uporabljaš plačljive storitve LOVE ekosistema (LOVE Nodes, LOVE Engine, exchange), veljajo standardna razkritja tveganj. Trgi krypto in energije so volatilni. Nikoli ne vložijo sredstev, ki si jih ne moreš privoščiti izgubiti.
