

LOVE Coin — Press 1-Pager

EU-built consumer Web3 ecosystem · USDL-pegged real yield · LOVE OS · LOVA AI · MiCA-aware

Operator	Wise World 2012 Limited (Hong Kong SAR)
Founded	2012 · LOVE Coin launched on Stellar
Token	LOVE · 7.8B max supply · deflationary (30–80% of service fees burned)
Architecture	CEX + DEX (LOVE Flow) + Self-custody SAFE Wallet + L1 (in dev)
Domains	lovecoin.life · loveos.tech · lovebrowser.life
GitHub	github.com/LoveCoin12 (read-only access on request)

What is LOVE Coin?

LOVE Coin is a vertically-integrated Web3 consumer ecosystem built in the EU. Unlike speculative meme tokens, LOVE is the utility layer behind a working stack of products: **LOVE OS** (web-based desktop OS with apps), **LOVE Flow DEX** (TWAP orders, DCA bots, grid trading, liquidations engine), **LOVA AI** (Gemini + Kimi K2.6 chat, image, video, voice — all USD-pegged billed in LOVE), **LOVE Nodes** (kWh-pegged DePIN rewards), **SAFE Wallet** (self-custody multi-chain), and **USDL/EURL** internal stablecoins.

3 numbers worth covering

7.8B	Max supply	Hard cap, deflationary by design — 30–80% of every service fee is burned or routed to closed-loop treasuries.
~70+	Live products	From ride-sharing and real estate to AI tools, games, and a refurbished-electronics marketplace — all paid in LOVE.
100%	Crypto-only payouts	Creators, affiliates, and Muses are paid exclusively in crypto into a self-custody SAFE Wallet — never fiat. Fiat is used only for the company's own operating costs.

Why this might interest your readers

- **EU-built, MiCA-aware** — designed from day one with European regulatory framing, not retrofitted.
- **Real utility, not promises** — every product is live and usable today at lovecoin.life.
- **Closed-loop economy** — service revenues fund a Game Dev Fund treasury and burn pressure, not insider unlocks.
- **Founder-led, transparent** — operator entity, code, and tokenomics are publicly disclosed.

Founder

Raiden Smith — Slovenian founder, building consumer Web3 since 2012. Background in self-development, community building, and product design. Reachable directly for interviews, comments, and fact-checking — see contact below.
